PROFESSIONAL SUMMARY

Web Developer with over 12 years of fast-paced agency and digital marketing experience specializing in custom WordPress, Vue.js / Nuxt and HTML, PHP, JS web development. Effectively collaborated with clients, project managers, designers and UI/UX teams resulting in cross-platform, responsive and performative web and HTML email experiences delivered on-time and within budget.

PROFESSIONAL EXPERIENCE

Sr. Web Developer

ps:studios (Phoenix, AZ)

Aug 2015 - Present

- Develop and design from concept to launch custom-built WordPress and static HTML websites from Figma or InDesign concepts
- Vue.js / Nuxt headless WordPress API application development
- Leverage AI to reduce boilerplate development hours
- Plesk, cPanel, WP Engine and Pantheon hosting platform initiation and management including SQL database setup and migration
- WP custom theme development utilizing Advanced Custom Fields (ACF) and popular content builders including Elementor, Enfold (ALB) and Gutenberg
- Integrate external 3rd-party platforms using Gravity Forms API (SalesForce, MailChimp, Constant Contact, etc) for data collection / transfer
- Assist in project estimates, training procedures (documentation), lead client training seminars
- Enhanced workflow process for development team utilizing Webpack, streamlining coding processes and standardizing local file environments
- Asset creation and image optimization via Photoshop and Illustrator
- HTML email template development for MailChimp and Campaign Monitor - quality control via Litmus

HTML Email / Web Developer

McMURRY / TMG (Phoenix, AZ)

Feb 2013 - Aug 2015
